# THE GAZETTE.

THURSDAY MORNING, AUGUST 5, 1858.

In order to obtain perfect obedience from any horse, we must first have him fear us, for our motto is, fear, love, and obey; and we must have the fuifiment of the two first before we can expect the latter; for it is by our philosophy of creating fear, love and confidence that we govern to our will every kind of borse whatever. I should not want, for myself, more than half or three-quarters of an hour to handle any colt and have him PERUVIAN GUANO running about in the etable after me; though I would advise a new beginner to take more time, and not be in too much of a hurry .-When you have entered the stable stand still and let your horse look at you for a minute or two, and as soon as he is settled in one place approach him slowly, with your arms stationary, your right hand hanging by your side, holding the whip as directed, and the left bent at the elbow, with the hand projecting. As you approach him, go not too near his head or croup, so as not to make him move either backward or forward, step a littie to the right or left, very cautiously; this will keep him in one place. As you get very near him, draw a little to his shoulder and stop a few seconds. If you are very near him, he will turn his head and smell your hand, not that be has any preference for your hand, but because that is projecting, and is the nearest portion of your body to the borse. This all colts will do, and they will smell your naked hand just as quickly as they will of anything that you can put in it, and with just as good an effect, however much some men may have preached the dietrine of taming horses by giving the animals the scent of articles from the hand. I have already made it appear that that notion is a mistake.

hand carese him as before directed, always using a very soft light hand, merely touching the horse, always rubbing the way the hair lies, so that your hand will pass along smoothly as possible. As you stand by his side, you may find it more convenient to rab his neck or the side of his head, which will answer the same purpose as rubbing his forchead. Favor every inclination of the horse to touch or smell you with his nose. Always follow each touch or communication of this kind with the most tender and affectionate caresses, accompanied with a kind word of my little boy!" "Pretty boy!" "Nice lady!" or something of the kind, constantly repeating the same words, with the same kind, steady tone of voice; for the borse soon learns to read the expression of the face and the voice, and will know as well when fear, love, or auger prevails as you know your own feelings; two of which-fear and anger-a good horseman should never feel.

As soon as he touches his nose to your

If your horse, instead of being wild, seems to be of a stubborn or mulish disposition; if he lays back his cars as you approach him, or turns his heels to kick you, he has not that regard or fear of man that he should have to enable you to handle bim quickly and easily and it might be well to give him a few sharp outs with the whip about the legs, pretty close to the body. It will crack keenly as it plies around his legs, and the crack of the whip will affect him as much as the stroke; besides, one sharp cut about his legs will affeet him more than two or three over his his back, the skin on the inner part of his legs or about the flank being thinner and more tender than on his back. But do not whip him much!-London Times.

### WORTH TRYING.

On the subject of "bites and stinge" Hall's Journal of Health has an item which may be important to some:

"As many of our readers are preparing to travel or go in the country for the summer, it may be useful to remind them that on ounce vial of spirits of hartsborn should be considered one of the indispensables, as in case of being bitten or stung by any poisonous animal or insect, the immediate free application of the alkali as a wash to the part bitten gives instant, perfect, and permanent relief, the bite of a mad dog, we believe, not excepted; so will strong ashes and water.'

## PIETY AND PROFITS.

A gentleman who employs a great number of bands in a manufactory in the west of England, in order to encourage his work people in a due attendance at church on a late fast-day, told them that if they went to church they would receive their wages for that day in the same manner as if they had been at work. Upon which a derutation was appointed to account the employer that if he would pay them for over hours they would attend likewise the Methodisc chapel in the evening!

HOWARD ASSOCIATION, PHILADEL-PHIA.—A benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.—To all persons afflicted with Sexual Diseases, such as SPERMATORRHEA, SEMINAL WEAKNESS, IMPOTENCE, &c. The Howard Association, in view of the aw-

ful destruction of human life, caused by Sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by quacks. several years ago directed their Consulting Surgeon, as a charitable act, worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical advice gratis, to all who apply by letter with a description of their condition, (age occupation, habits of life, &c.,) and in cases of extreme poverty, to furnish Medicines free of charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the atflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause. Just published by the Association, a Report

on Spermatorrhoa, or Seminal Weakness, by the Consulting Surgeon, which will be sent by mail, (in a sealed letter envelope,) free of charge, on receipt of two stamps for postage.

Address, for Report or treatment, Dr. GEO.
R. CALHOUN, Consulting Surgeon, Howard

Association, No. 2 south Ninth street, Philadelphia, Pa. By order of the Directors. EZRA D. HEARTWELL, President.
